

RD 903

3hrs Elective Credit

With the Internet being the major advertising tool for our brokers and agents a thorough understanding of the rules and regulations regarding it are in order. With significant changes in the REALTOR® Code of Ethics for 2007 being fresh in the mind of the majority of our brokers, this course ties those changes directly into the sections of Illinois License Law that impact advertising both on the internet and in print media. We will also cover the ongoing issues regarding escrow monies. All of this is done with a focus on the Broker/Owner/Managers responsibilities.
