

Alternatives to Photoshop

with Eli Lampson

Technology has brought in new advances in the world of digital photography. There are a number of free software applications available on the net that help you edit, enhance, organize, and share your photographs. Whether you need to freshen up your clients' property photos for listings, update your web site, or just edit your own digital photos for personal use, these programs provide cost effective alternatives to the pricier Photoshop program.

Learn how you can manipulate and organize your personal or business photos with several different programs that are free for anyone to download and install.

This free session is ONLY for NSBAR Members. If you are not a member, you may consider joining as a secondary member with NSBAR in order to attend our free membership appreciation classes.

Date: October 28th, 2010

450 Skokie Blvd Bldg 1200, Northbrook, IL 60062
